My Background

I've been a coach for more than 25 years. I started out by being certified and doing extensive trainings in NLP and various coaching models.

Then, from coaching and teaching students over the years, I developed my own unique 7-step method of coaching that created change very quickly and ecologically.

I began using this coaching method with my clients and they achieved unusually good results both personally and professionally. I added to it a way to get coaching clients and in 2014, my clients were paying me as much as \$833 an hour to coach them over the phone. I semi-retired to a 40 acre horse ranch. That's when I built the extensive online course that teaches people how to learn it and do it. My coaches are out there making great money both part time and full time.

Here are a couple of clients I've coached and the results:

"When I first met life coach Alexander I was \$17,000 in the red. Within a few years of working with you and your strategies, I am having my first 7 figure year.

Your phone coaching has been incredibly valuable."

Dan J.

"I made \$40,000 in the first month from one of the up-sell techniques you taught me. And I've added a quarter of a million dollars to my yearly income.

And I took my wife to France and we hung out with the Tour-De-France cyclists, so I guess that qualifies as the lifestyle piece.

That's why I've come back for more coaching with you!"

So now I want to get straight to the core of this and reveal the essential process that my coaching system is based on.

To give you some important background, you should now that **at least 80% of coaching courses out there** on the internet today, are a dumbed down version of questioning with a few personal development techniques thrown in.

The results is that there are a LOT of coaches out there who don't really know how to create positive change, much less do it rapidly and ecologically.

My Coaching System Is VERY Different

With My Approach:

- You DON'T need to pay for expensive training and spend a year or more learning how to coach people. Many coaching programs out there today are flat-out overcharging. My students become skilled enough to do highly effective coaching sessions (and get paid for them) in as little as 14 weeks.
- You DON'T need to be a marketing expert or social media guru to get clients. My way of getting clients uses NO-cost and LOW cost methods. Online and offline.

Instead . . . I take an entirely different approach:

- I use a **proprietary 7-step coaching process** that creates amazing change in a person's life, often quite rapidly. It's elegant, ecological, and masterful. **And it's proven.**
- I use a **set of little known methods to get clients.** They're all LOW cost and NO cost marketing techniques I've discovered. They work. Online methods and offline methods are both used to generate a constant flow of inquiries for your coaching services.
- I **provide over the top support** to you during your learning journey. I answer questions, in a PRIVATE Facebook group that is dedicated to helping my students succeed.
- I **Get INSTANT inquiries** and requests for my coaching using my client getting system.

Clients come pouring in once you do **TWO things.**

1. Learn a coaching process that REALLY works and gets people results quickly.
2. Learn how to hook the right clients - at the right time, in the right place, and with the right call to action.

And I would add -> OVER deliver for your clients so they keep you for YEARS!

The Industry is EXPLODING!

Because of COVID 19, and other massive changes in our society and the world, people want and need coaching now more than ever. They're asking for it and the demand is higher than ever.

But most coaches, over 75% of them out there today, have lousy training and don't even know it. They learned a dumbed down questioning process instead of a true therapeutic coaching methodology. **This FACT is your great opportunity.**

“This course has changed my life. I now know how to create change that I simply didn't know how to do before. I understand what is needed to create a shift that results in a new reality.

This has been extremely enlightening and worth the time and expense to take part.

I definitely recommend this training to aspiring coaches, and anyone who wants to know how to change their lives and the lives of others.” **Casey Evans**

“An impressive and transforming experience.

I received a breakthrough on an inner pattern that had been holding me back for years.

Alexander does more than teach you how to coach others; he coaches YOU in the process.

I'm still amazed at the depth of how deep the insight goes. My life direction is so much clearer now.” **Shawn Patrick**

“This training was one of the best things I've ever done.

Alexander guides you step by step through the entire coaching process. Little by little it came together until I was doing breakthrough sessions and getting amazing results for someone. I'm really grateful for this experience.” **Ryan Baller**

Here are the 3 steps you would need to follow in a little more detail...

STEP 1 – Learn The 7-Step Therapeutic Coaching Process

This coaching process is like nothing out there. I have developed and evolved it over more than 16 years.

This is an essential 1st step. You must decide you're going to help others achieve their goals and dreams by coaching them. Then resolve to get uncommon coaching skills. You'll need to show up at least twice a week for a half an hour each time to make it through the initial certification training. It's all online for you in easy to do lessons.

Then, you will be a **Certified Life Coach** with a truly POWERFUL and effective coaching methodology.

This constitutes the **first HALF of the CAREER training you need** to be successful.

Once you learn this unique coaching method you'll be able to . . .

- Know exactly what keeps people stuck and how to help them pinpoint it
- Be able to help people **get uncommon clarity** about their goals, dreams, & direction
- **Use language masterfully** to catalyze breakthroughs and profound discoveries
- Know how to **generate resources** that are needed to get a breakthrough
- Do ecological change work – that is holistic and congruent
- Install resources so they trigger exactly when they're needed: **FUTURE PACING**
- And much more

This is hands down one of the single finest coaching processes anywhere in the world today. I know because I've studied coaching systems for more than a decade.

Once you learn it, you'll be able to change your own life in ways you never thought possible, AND help others get breakthroughs and quantum leaps.

[Click Here To Register For My LIVE Masterclass](#)

STEP 2 – Get And Keep Clients

The second step is to learn how to get clients. This is **the second HALF of the CAREER training you need.**

This is so important, that I have put it into a separate course for you to purchase and do **AFTER** you've gone through the life coaching course.

Please note that I offer these two courses separately. You can also enroll in both courses at once if you wish.

Course 1: Life Coach Certification Online – Learn the 7-step coaching process

Course 2: How To Get Coaching Clients – Learn my client getting system

BONUS: Included in Course 2 – How To Scale Your Business

Once you know how to get clients **ONLINE** and **OFFLINE** and automate a lead-generation system you'll have an ongoing stream of requests for your coaching.

This is what separates this entire program from so many others. This is a state of the art marketing course just for coaches.

I've used it to get 21 clients and a waiting list!

And once you get plenty of clients, guess what – you can **RAISE YOUR RATES.**

Then simply pick and choose which clients you enjoy working with most.

[Click Here To Register For My LIVE Masterclass](#)

STEP 3 – Scale Up Your Coaching Business

The third step is all about scaling.

Once you have completed both parts of this program you will be

1. A highly skilled coach AND
2. You'll know how to get clients

Then it's time to scale.

I'll teach you a set of leverage and automating techniques that will put your lead generation on autopilot. You'll be able to raise your rates from \$100 per session to \$200, then \$300, and more.

This is the secret of how I and my students generate more than 6-figures a year doing coaching.

You'll learn how to:

- Get higher and higher paying clients
- Take some of your passion centers and turn them into coaching income streams
- Discover new **niche markets that double, triple, and quadruple your income**
- Automate your lead generation
- Coach more than one person at a time

This system is very simple.

And it's possible to hit \$50,000 a year in your new coaching business in 6 months, and over \$100,000 a year within 12-14 months.

I cannot guarantee you'll earn any set amount because everyone goes at their own speed of course, and it depends on how much effort and time you put into applying the concepts in the program.

It all depends on **how much action you take**.
